The Life of a Soldier (By Jodi Kucera)

We have an understanding, you and I.
We sit in silence; nothing needs to be said.
I know the weight you carry.
You hold your head high, but inside you cry.
The life of a soldier is not an easy one.
Memories haunt you!
But you stand tall and show no fear.
The life of a soldier is not an easy one.
You hear voices of days past come rushing to your head.
You think to yourself, "He was a good one; why is he dead?"
You wonder if you should have done things differently.
No time to think, only react.
The life of a soldier is not an easy one.
The guilt is too much to bear.
Although you were wounded, you question,
"Why him and not me?"
You can't forget the faces that were there.
The life of a soldier is not an easy one.
We have an understanding, you and I.
You're a soldier for life; and it has not been an easy one.

Why Do They Fight (By Blue Butterfly)

Veterans are men and women,
who fight because they care.
They give their lives to serve our country,
by land, by sea, or by air.
They serve because they love us.
They serve because
they want a better future for their country,
a better future for their world.
Serving comes with consequences,
that they know and are willing to dare.
You can't find a braver person,
here or anywhere.
They fight for their rights.
They fight for our lives,
and we owe them all a thank you
for all that they've sacrificed.
